NEW ALTERNATIVE PARTS

IN STOCK - IMMEDIATE DELIVERY

H.O. Penn Machinery offers a vast range of replacement spare parts. This commitment ensures that your down time is kept to a minimum. Our range includes eccentric bushings, main shaft sleeves, bearings, rotary seal rings, mantle nuts, bottom shell bushings, toggle plates and toggle seats. We also have an extensive supply of manganese wear parts of premium metallurgy while maintaining an extensive pattern inventory. The manganese is available in 14, 18, and 21 percent alloys. H.O. Penn offers replacement parts for many makes and models including: Metso, Pegson, Terex, Cedar Rapids, Sandvik and Extec equipment. Call us for a complete listing of the machine makes and models available.

COMPONENT EXCHANGE PROGRAM

COMPLETE ASSEMBLIES/EXPEDITED REPAIRS

HOW IT WORKS!

Contact H.O. Penn Machinery Parts and Service Center to receive a quote for the component required and related core charge. Once the customer receives their exchange component, return the core to H.O. Penn Machinery in New York or Connecticut for inspection. Upon completion of inspection, core credit will be issued. Freight charges apply.
